

## Numerology Worksheet

---

**Your date of Birth:**

**Example:** March 12, 1956

---

Step 1: Write all the numbers of your date in the following order: dd/mm/yyyy.

**Your numbers:**

**Example:** 12 03 1956

---

Step 2: Sum all the numbers, excluding "0". The total is your (1) number

**Your numbers:**

**Example:**  $1+2+3+1+9+5+6=27$

**Your (1) number:**

**(1) number: 27**

---

Step 3: Add both digits of (1) number to receive your (2) number.

**Your numbers:**

**Example:**  $2+7=9$

**Your (2) number:**

**(2) number: 9**

---

Step 4: Take your (1) number and deduct the sum of the first digit of date of birth ("0"excluded) multiplied by the coefficient "2". The total is your (3) number

**Your numbers:**

**Example:**  $27 - (1 \times 2) = 25$

**Your (3) number:**

**(3) number: 25**

---

Step 5: Add both digits of your number (3) to receive your (4) number

**Your numbers:**

**Example:**  $2+5=7$

**Your (4) number:**

**(4) number: 7**

---

Step 6: Write all your numbers from Step 1 and your (1), (2), (3), (4) numbers together

**Your numbers:**

**Example:** 12 3 1956

27 9 25 7

---

Step 7: Write every individual digit in the coordinating place of the table. If the number is not presented, write NO.

**Your Table:**

**Example:**

			All 1s <b>11</b>	All 4s <b>NO</b>	All 7s <b>77</b>
			All 2s <b>222</b>	All 5s <b>55</b>	All 8s <b>NO</b>
			All 3s <b>3</b>	All 6s <b>6</b>	All 9s <b>99</b>
